APPENDIX 3 Parka Pals

Parka Pals

When the temperature drops, slip into this parka project and watch students' interest go up and up. To make a parka pal, trace a circle template that's seven inches in diameter onto skin-toned paper. Cut on the resulting outline. Using markers, glue, scissors, construction paper, and assorted art supplies, decorate the circle to resemble your face. Glue the circle to a paper plate; then glue cotton balls along the outer rim of the plate. Trim to round two corners of a 9" x 12" sheet of construction paper, and draw two lines as shown to indicate the arms of the jacket. Glue this paper to the back of the plate. Complete this project by attaching buttons and/or cotton balls to finish the parka. It's cold outside, but you'd never know it snuggled deep down in your parka!

Deborah Burleson, Silverdale, WA
